### EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The prior art of record does not disclose or reasonably suggest comparing segments of first and second media signals to identify first common segments, where the start and end times of the source material are not known. *Logan et al.* is concerned with downloading an identification signal and an attribute signal, where the attribute signal provides information about a length of the signal. Then, *Logan et al.* compares the downloaded signal with a broadcast signal. Applicant's invention does not download the signals, but collects all the signals from a radio broadcast (or potentially from streaming audio to a personal computer). Thus, Applicant's invention involves signals whose start and end times are not known because a radio broadcast (or streaming audio) does not contain any information about the length of the signal. By contrast, *Logan et al.* compares a radio broadcast signal to a stored downloaded signal, where the length of the stored downloaded signal is known, while Applicant's invention compares signals that are all received as broadcast signals, where broadcast signals do not contain any indication of start and end times. Applicant's Specification, Page 11, Lines 3 to 4, expressly states that the invention is directed to a problem where it is not known where the source material starts or ends. The prior art of record does not

disclose or reasonably suggest the feature of comparing two broadcast signals whose start and end times are not known.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Martin Lerner whose telephone number is (571) 272-7608. The examiner can normally be reached on 8:30 AM to 6:00 PM Monday to Thursday.
